

PLAN NOW TO ATTEND THE LGM CARPET
SEMINAR ON October 1, 2nd and 3rd.

Let the experts who pioneered the industry move your company to a higher plateau of success. This seminar will help to cultivate your skills; confidence and expertise that will help give you a competitive edge.

PRACTICAL / IMPARTIAL /
OBJECTIVE

The LGM Carpet Seminar places emphasis on explaining the more technical aspects of fiber, yarn, dyeing, backing systems and carpet manufacturing in an easy to understand format. The seminar also addresses new technical developments and their effects on carpet as well as information on installation, maintenance and testing. The mill tours will bring to life the information learned in the classroom. The information presented in the seminar is impartial, objective, and unbiased, giving participants the necessary facts to more fully understand the product and make better and more profitable business decisions.

Lewis G Migliore has been associated with the floor covering industry for over 36 years. Challenges, experience, successes and opportunities servicing floor coverings lead to his developing a unique business model in the technical and educational segment of the industry, by determining and solving problems.

Lew is considered to be the floor covering industries' most respected and competent independent, objective and unbiased analyst of complaints, problems and performance issues and is a uniquely qualified speaker, author and instructor on the subject.

Sim Crisler The expert in pattern and modular carpet construction and installation. Conducted the Milliken Installation Contractor Certification Program, received the Excellence in Education award, served on the CRI Installation committee, is an associate member and served as chairman for the FCIA and was trustee of the FCIB (Floor Covering Installation Board).

Benny Wood Is a chemist and expert in adhesives, adhesive formulations and usage. He currently is a member of the advisory panel developing standards for floor covering installations for the adhesive and flooring manufacturers. He is involved in revising the Green Label Program for VOC emissions for adhesives and sits on the D-14 and D-22 standards committees of the ASTM.

Guest Speaker – Perry McLawhorn is and expert in fiber characteristics and applications for floor covering industry. Led commercialization of new and innovative fiber technologies like low melt fiber cross bonding for Honeywell Fibers and has extensive knowledge of the steps to manufacture carpet from polymer to finished carpet.

Guest Speaker – Lee Phillips is the director of the industry's largest and most technologically advanced independent testing laboratory. He is responsible for analyzing, evaluating, developing and operating test procedures on a multitude of floor coverings and related equipment. Topics to be discussed will be testing of and requirements for carpet, laminate, hardwood, and vinyl, along with the Carpet and Rug Seal of Approval Program for testing of vacuum cleaners, spot cleaners, and cleaning equipment. He will also be discussing XRF Technology from NASA that could lead to "smart carpet" identification.

Guest Speakers: Perry McLawhorn and Lee Phillips
Instructors': Lew Migliore, Sim Crisler, Benny Wood

Re: Carpet Seminar

Nancy M. Nee
Corporate Director
Strategic Sourcing

Dear Lew,

I wanted to take the time to thank you for putting together one of the most educational seminars I've ever attended. Anyone in the hospitality industry that specifies or purchases carpet should take advantage of the opportunity to attend one of your seminars. You and your team demystified the carpet manufacturing, specifying and problem solving issues that we deal with in our industry on a daily basis.

Thank you again and keep up the good work!

Sincerely,

Nancy Nee

"WE ARE SO PLEASED THAT LEW IS DOING THESE SEMINARS. SO MANY ARE HELD EACH YEAR BY THOSE WHO HAVE NOT EVEN HALF THE KNOWLEDGE OR EXPERIENCE OF LEW AND HIS ASSOCIATES."

THANK YOU.
EDIE
MS. EDIE DUFFY – PRESIDENT
